Over the past fifty years, the ACM Costa Rica program has influenced the lives of many students. Due to space limitations, we cite only one example:

“In 1975, I participated in the Associated Colleges of the Midwest Program in Costa Rica. The experience shaped much of my future including a deep interest in Latin America. Many times in the United States Senate and at the White House, I have spoken with Presidents and Senators about the imperative of strong mutually supportive relationships with Central and South America. I am rooted in this view in part because of the ACM program and my study of President Kennedy’s Alliance for Progress. I believe the future of the United States, and Latin America, are inextricably tied together because of our shared history and shared demographics.”

Ken Salazar, JD

Partner in the law firm WilmerHale. Secretary of the Interior of the United States, 2009-2013. U.S. Senator for Colorado, 2005-2009. Attorney General of Colorado, 1999-2005. Executive Director of the Colorado Department of Natural Resources, 1990-1994. Chief legal counsel to the Governor of Colorado, 1986-1990.
