Dear Dr. Souza,

Thanks for sending us your manuscript "Volatile compounds profile of Bromeliaceae flowers by HS-SPME/GC-MS".

Unfortunately, our reviewers indicated that this draft does not meet the requirements for inclusion in the International Journal of Tropical Biology - Revista de Biología Tropical (please see enclosed comments), and we cannot publish it.

Nevertheless, they suggest that you re-write it (you can submit a re-written version as "new manuscript").

Sincerely,

Julián Monge-Nájera
Director
Revista Biología Tropical

NOTE: Each manuscript that we receive is judged independently, so this decision only affects the current draft: we will be pleased to evaluate a new version (which would be sent out to referees) and other manuscripts that you may send in the future, as long as they are within the scope of the journal
