Director Revista de Biología Tropical (Universidad de Costa Rica)

Dear Director

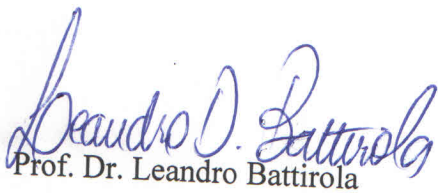

I, Leandro D. Battirola, first author of the article "Vertical and time distribution of Pseudoscorpiones (Arthropoda: Arachnida) in the floodplain forest in the Brazilian Pantanal" and my coauthors agree with the submission for publication of the manuscript for "Revista de Biología Tropical"(see attached letters). I maintain that the document is original and tackles a major taxonomic group to the knowledge of biodiversity in wetlands such as the Brazilian Pantanal. We follow the ethical requirement and agree to pay excess page fee charges if required. Below there are names and email addresses of three possible Reviewers.

Dr. Mark S. Harvey (Western Australian Museum)
