Discount on Document Delivery***

UnCover

**Announcing
*Access to UnCover***

**Document search and delivery for readers
of *Revista de Biología Tropical***

You can now access free of charge the UnCover on-line database of the complete table of contents information from over 15,000 journals. In addition, you can order delivery of full text of articles at a discount of \$2.00 per article off the regular document delivery price—a discount normally available only to UnCover subscribers who pay an annual password fee.

With *Access to UnCover*, you can search for articles on particular topics, by particular authors, or from particular journals. You can then order on-line the full text of articles for delivery by fax within 24 hours. Document delivery fees will be billed to your credit card.

Access to UnCover is available now over the Internet.

Simply Telnet to the *Access to UnCover* Address:

allen.carl.org

At the prompt, enter the Password: DELIVER

***Access to UnCover* makes it easy to find
the articles you need.**

40 YEARS OF ADVANCES IN TROPICAL BIOLOGY

NOW ALSO IN ELECTRONIC EDITION THROUGH INTERNET

Without interruption and since 1953, the *Revista de Biología Tropical* has published high quality papers on the Tropical and Subtropical biota, in the areas of Anatomy, Biosystematics, Paleontology, Ecology, Genetics, Physiology, Medicine and Microbiology.

This journal provides a free and quick mean of communication to authors from any institution:

manuscripts are judged solely on the bases of scientific quality and pertinence.

The most important data bases and international reference sources include the *Revista de Biología Tropical: Biological Abstracts (BIOSIS)*, *Current Contents (Institute for Scientific Information)*, *Index Medicus*, and more than 20 others, including an *Internet* edition (UnCover, UMI, etc.).

40 AÑOS DE AVANCES EN BIOLOGIA TROPICAL

AHORA TAMBIEN EN VERSION ELECTRONICA (INTERNET)

Ininterrumpidamente desde 1953, la **Revista de Biología Tropical** ha publicado trabajos de alta calidad sobre organismos tropicales y subtropicales en las áreas de anatomía, biosistemática, paleontología, ecología, genética, fisiología, medicina y microbiología.

La **Revista de Biología Tropical** provee un medio de difusión gratuito para autores de cualquier institución, cuyas obras son juzgadas únicamente por la calidad científica y su pertinencia para los trópicos.

Las principales bases electrónicas de datos e índices internacionales incluyen a la Revista de Biología Tropical: *Biological Abstracts (BIOSIS)*, *Current Contents (Institute for Scientific Information)*, *Index Medicus*, *Index Veterinarius*, *Review of applied Entomology*, *Tropical Diseases Bulletin* y once índices más.

Su precio subsidiado la pone al alcance de investigadores de todos los medios.

CANJES

SI SU INSTITUCION PUBLICA ALGUNA REVISTA DE TIPO ACADEMICO, PUEDE SER ADECUADA PARA CANJE (INDEPENDIENTE DE LA ESPECIALIDAD).
